

Energy Education for Today's Industry

Benefits of Membership:

Professional development through informative programs, on-site field trips, seminars and workshops

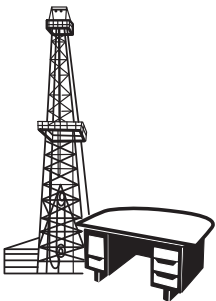

Personal and business horizons expanded by networking with industry leaders and colleagues throughout the United States and Canada

Opportunity to enhance your communication and leadership skills

Educating our members in the technology of our everchanging industry

Mission Statement

"To enhance and foster a positive image to the global community by promoting the contribution of the petroleum, energy and allied industries through education by using all resources available."

Today's employers are looking for employees who know how to operate professionally in today's competitive work environment.

The Desk and Derrick Club of Houston (D&D) can offer you an educational and enjoyable method by which you can expand your knowledge of the industry and ultimately become more valuable to your employer.

The Desk and Derrick Club of Houston is affiliated with the Association of Desk and Derrick Clubs (ADDC). ADDC is a non-profit international organization whose purpose is to promote the educational and professional development of individuals employed in or affiliated with the petroleum, energy, and allied industries.

For more than 50 years, D&D has maintained its status as a major contributor of energy education through informative programs, on-site field trips, seminars, and workshops. Membership in D&D provides learning experiences via the exchange of ideas, opinions, and problems among people of mutual interests. Members gain leadership skills

in a positive environment, sharpen their public speaking talents by taking part in programs, and working on interesting and exciting projects

Our members have been the guiding force behind publications such as the *Fundamentals of Petroleum*, and the *Desk and Derrick Standard Oil Abbreviator*, publications that are now being used widely throughout the world and are indispensable to thousands working in all aspects of the industry. Members designed and developed the *Bit of Fun Energy Activity Book*, now used in classrooms across the United States and Canada. Visit the ADDC Web site at www.addc.org for more information about this publication.

If you are employed in any branch of this vital industry, make a commitment to expand your professional and personal knowledge.

The members of the Desk and Derrick Club of Houston invite you to be a part of this dynamic organization. For more information, visit our Web site at www.deskandderrickhouston.org.
